Equity Market Analyst Intern, Investment Management Office

Jul. 2023 - Sept. 2023

- Conducted in-depth research on the Hong Kong stock market, analyzing semi-annual reports and fundamentals of over 80 listed companies.
- Prepared over 30 post-investment management and risk monitoring reports, providing early warnings for potential market risks from company announcements and public opinion.
- Conducted fundamental research on the consumer goods industry, tracking macro-level consumption policies and evaluating their impact on demand and market structure.

Guangdong ZhongAn Law firm

Shenzhen, China

Legal Intern

Jan. 2023 - Feb. 2023

- Participated in due diligence for cross-border investment and mergers and acquisitions, assisted in reviewing financial statements, audit reports, and constructing financial models.

RESEARCH EXPERIENCE

The Impact of Shipping Connectivity and Deviation Costs on Port Resilience: Empirical Evidence from the Red Sea Crisis (Supervisor: Dr. Yi Xiao) Sept. 2025 - Present

- Presented research as a poster at the 5th Annual Conference on Port and Shipping Economic Systems Engineering cum The 3rd Conference on Transport and Supply Chain Resilience and Digital Transformation.
- Leveraged the 2023-2024 Red Sea crisis as a quasi-natural experiment, using continuous-intensity DID and PPML to demonstrate how deviation costs and pre-shock connectivity shape trade flows and port resilience dynamics.

The Impact of Social Capital Formation on Perceptions of Fairness: Evidence from Volunteer-Based Education Initiatives in China (Research Assistant to Prof. Hongru Tan) Jun. 2024 - Sept. 2025

- Assisted in the behavioral economics RCT experiments by designing questionnaires based on the CHFS framework, conducting data cleaning, modeling, and statistical analysis.
- Hold the software copyright for the “Liyun Volunteers” mini-program, the dedicated platform on which this study’s data were collected and the game-theoretic experiments were conducted.
- Designed and optimized an experimental model based on game theory, using decision variables in income generation and distribution stages to reveal the dynamic role of fairness perceptions in cultural contexts and policy-making, supporting research papers with data and methodological insights.

Advertising and Intended Family Size: The Influence of Large-Family Portrayals on Fertility Preferences

(Research Assistant to Prof. Elhaoussine Youssef)

Sept. 2023 - Aug. 2024

- Systematically organized and analyzed literature on the impact of advertising on social behavior, developed a theoretical framework to explore how advertising affects family structure changes, particularly in promoting larger family structures.
- Conducted a thorough review of relevant English literature, independently wrote a literature review covering the potential impact of advertising on policy, providing in-depth background analysis and theoretical support for the research paper.

The Influence of COVID-19 on the Cross-Period Decision: Self-Employment and the Consumption of Durable Goods

(Research Assistant to Prof. Luo Bei)

Dec. 2022 - Dec. 2023

- Assisted the professor with data cleaning and analysis, handling over 37GB of data, using STATA for data organization and regression, and employing Selenium and BS4 in Python for web scraping and data processing.
- Completed a preliminary research report, datasets, and web scraping code, supporting subsequent research.

EXTRACURRICULAR ACTIVITIES

11th National College Student Finance Challenge

Jun. 2025 - Sept. 2025

- Focused on the “new consumption” investment strategies, awarded Third Prize in the National Final Round.

3rd National ETF Trading Elite Challenge
